

# Shell Assignment Command Checklist

Name: \_\_\_\_\_

#	Item	Value	Earned
<b>1</b>	<b>Commands</b>	<b>150</b>	
1	<code>ls -lah</code>	<input type="checkbox"/>	
2	<code>mkdir bananas</code>	<input type="checkbox"/>	
3	<code>cd bananas</code>	<input type="checkbox"/>	
4	<code>cd ..</code>	<input type="checkbox"/>	
5	<code>cd ~</code>	<input type="checkbox"/>	
6	<code>pwd</code>	<input type="checkbox"/>	
7	<code>mv somefile.txt bananas</code>	<input type="checkbox"/>	
8	<code>cp bananas/somefile.txt somefile/otherfile.txt</code>	<input type="checkbox"/>	
9	<code>rm -rf bananas</code>	<input type="checkbox"/>	
10	<code>cat file(s)</code>	<input type="checkbox"/>	
11	<code>less somefile</code>	<input type="checkbox"/>	
12	<code>head somefile -n 10</code>	<input type="checkbox"/>	
13	<code>tail somefile -n 10</code>	<input type="checkbox"/>	
14	<code>grep -lic bacon bacon.txt , ham.txt</code>	<input type="checkbox"/>	
15	<code>wc -w bacon.txt</code>	<input type="checkbox"/>	
16	<code>history</code>	<input type="checkbox"/>	
17	<code>!x</code>	<input type="checkbox"/>	
18	<code>chmod 777 somefile.txt</code>	<input type="checkbox"/>	
19	<code>sort words.txt</code>	<input type="checkbox"/>	
20	<code>Command of your choice</code>	<input type="checkbox"/>	
<b>2</b>	<b>Piping</b>	<b>50</b>	
	Similar to (but open for me to choose command):		
	<code>grep bacon bacon.txt   wc -l</code>	<input type="checkbox"/>	
<b>3</b>	<b>Redirection</b>	<b>25</b>	
	Similar to (but open for me to choose):		
	<code>cat file1 file2 &gt; file0</code>	<input type="checkbox"/>	

#	Item	Value	Earned
<b>4</b>	<b>General</b>	<b>50</b>	
	Prompt line acts correct (cleans command etc.)	<input type="checkbox"/>	
	Arrow keys work	<input type="checkbox"/>	
	Items were not printed to the screen unnecessarily	<input type="checkbox"/>	
	Too many messages (like successful ..... ) weren't used	<input type="checkbox"/>	
	Program did not crash or need restarted	<input type="checkbox"/>	
	Total:	<b>275</b>
